

Information on COVID-19 and Bolingbrook Golf Club

Members and Friends,

We wanted to take this time share that Bolingbrook Golf Clubs priority is always the safety of our guests and associates. We know you continue to hear and see news reports about the coronavirus, or COVID-19, and some of its effects around the world. The BBGC team is closely monitoring this evolving situation and are in regular contact with health agencies for information and guidance to the Covid-19 Pandemic. Information is constantly evolving and is causing all of our lines of business to focus on customer safety in an even greater way than we do on a daily basis. In the food service industry where safe handling practices are paramount defining the basics and documenting those efforts will be critical to ensure we have positioned our properties for the safest outcome possible. It is our intent to provide as much information, tools and resources to the field possible

Overall Guidance for BGC and Staff

The best way to avoid being infected is to take everyday preventive actions that stop the spread of respiratory viruses, including:

- We avoid close contact with those who are sick and keep employees home if ill.
- Our employees wash their hands frequently with soap and water for at least 20 seconds. Also, an alcohol-based hand sanitizer that contains at least 60% alcohol is used in conjunction or if soap and water are not available.
- We recommend to all to avoid touching eyes, nose, and mouth with unwashed hands.
- We promote if you cough or sneeze, use a tissue and throw that tissue in the trash.
- We are constantly cleaning all surfaces and objects daily
- We are telling our staff the following... wipe your desk, keyboard and mouse with available antibacterial wipes in combination with regular hand washing or using hand disinfectant is a simple way of reducing the spread of bacteria. Also, we are diligently working to wipe down our common areas such as door handles, coffee machine facings, water tap handles, etc. By working together as a team, we can all reduce the spread of viruses and bacteria, in general.

With these efforts, we are practicing everyday preventive actions to help stop the spread of germs. These actions are just a few things that we are doing to ensure the safety of everyone at our locations and allow for a continued guest enjoyment wherever possible.

As always, we maintain close relationships with local, state, national public health authorities. We take their guidance when additional preventive measures are deemed necessary. Bolingbrook Golf club is welcoming guests as usual and we continue to implement preventive measures in line with the recommendations of the Centers for Disease Control and Prevention (CDC) and other health agencies.

For the most up to date information please check our social media channels, websites, and or by calling our golf shops at the numbers below:
